# Welcome!

Welcome to my AI Book Chatbot! I have written 28 books, and so perhaps you, like many others, would like a way to obtain useful information but you do not have the time to read a book. The AI Book Chatbot will quickly help you get the information you need.

**The AI Book Chatbot gives you 24 hour access to US\$635 worth of books for only US\$20.  
And you can ask unlimited questions!**

AI chatbots are a new technology. Please read the [terms and conditions for chatbot use](#) which describe important information regarding limitations of use, copyrights, "fair use" of chatbot responses, and the proper format for citing chatbot responses.

Below are sample questions that you can ask the book chatbot sorted by job function followed by subject or area of interest. To obtain good AI Chatbot responses, ask questions that are closely related to a specific book. You can query the chatbot based on items listed in the Table of Contents for any particular book. The more specific the question to your job or context, the better the response is likely to be. And please understand that the AI Chatbot doesn't know who you are, so any context around your role and what you're trying to accomplish will greatly improve the quality of the responses.
